

MARTIN TWELVE.

So Many Sound Money Dem-
ocrats Vote for Him.

A STAMPEDE ATTEMPTED.

Failure of the Cumberland Coal
Co., at Sturgis.

KILLED IN A RUNAWAY ACCIDENT.

Frankfort, April 6.—There was not a little apathy in and about the Capitol this morning when the Senatorial situation was under discussion. It was nevertheless thought the vote today might be closer and more exciting than any that has occurred lately, and every one was on the qui vive. When the hour for the vote approached members took their seats apathetically and manifested little interest in the business of the hour. There was some interest awakened, however, when the name of Mr. Martin was called. Twelve sound money Democrats cast their votes in favor of Mr. Martin. This was the only change from the last vote. For a time it looked as if there would be a stampede to Martin, but it was averted by a motion to adjourn, which prevailed.

A RUNAWAY

Results in the Death of a Well-to-
Do Farmer.

Beaver Dam, Ky., April 6.—A distressing accident occurred here this morning, resulting in the death of a prominent and wealthy farmer, Mr. Hollis Schultz. Mr. Schultz had been in town in his wagon and had started home, when his horses took fright and became unmanageable. Mr. Schultz was finally thrown out and so seriously injured that he died soon after being picked up.

APPEAL FOR AID.

A Committee Sent to Wash-
ington for Aid to Flood Victims.

Washington, April 6.—A committee of prominent men from the Southern states that are suffering so terribly from the flood is now in Washington appealing to Congress, in behalf of the stricken district. There is no doubt the national government will be liberal in its treatment of the question.

200000 acres is from the
Louisiana river. It would be
a great saving to the people
of the state if the government
would appropriate of one
million dollars by Congress
to the crevasses in this
district. It would give employment
to many and allow people to
live in their homes.

WITHOUT DELAY

Must Weyler Crush the Rebellion
in Cuba.

New York, April 6.—It is reported here that the Madrid government has cabled General Weyler that he must crush the rebellion at once. The belief is that the order is dictated by the empty condition of the treasury, and that but a few days longer can Spain hold out unless victory perches on her banners.

A Freak of Nature.

A young man named Roark, of Palma, Marshall county, arrived in the city today, en route to Louisville with the baby recently born near Palma with its heart and liver growing on the outside of its body. It is in alcohol, and quite a curiosity to the medical profession.

Used Bad Language.

Charles Cromwell, colored, was arrested this morning on a warrant charging him with using insulting language to Mr. Dan Lagomarsino, at the New Richmond Hotel. He charged Mr. Lagomarsino with having thrown a glass at him, cutting him in the face, but the evidence showed this to be untrue.

Hot After Him.

The conduct of a darkey in the presence of a number of little girls near Prof. Cade's school yesterday afternoon aroused the indignation of quite a number of residents, and the wretch was chased for several blocks by one gentleman.

Big Tobacco Sales.

Today a series of big tobacco sales began at Mayfield, and quite a number of Paducah tobaccoists will attend the sales, which will probably last some time.

A Few Small Cases.

In addition to the cases mentioned elsewhere, W. C. Rowlett, Mike Givens and John Curtis, all charged with being drunk, were fined \$1 and costs in the police court this morning.

ASKED TO INTERFERE.

Is the President in Behalf of Ri-
vera by the Senate.

Washington, April 6.—The Senate yesterday by unanimous vote adopted a resolution reciting the reports that Gen. Ruis Rivera, the Cuban commander, is about to be tried by drumhead court-martial and shot, and expressing the judgment of the senate that if these reports are true the President of the United States should protest to the Spanish government against such a violation of the rules of civilized warfare. This resolution does not go to the House of Representatives and becomes effective as a measure of advice to the President by its adoption today. Although opposition was withdrawn on the final vote there was spirited opposition in the early stages of the debate and a test vote on the comparative strength of the Cuban and anti-Cuban sentiment in the senate. The test occurred on a motion to refer the resolution to the committee on foreign relations.

MUNICIPAL ELECTIONS.

ELECTIONS IN 53 CITIES.

Chicago and St. Louis Engaged In
Hot Contests Today.

REPUBLICANS WILL CARRY ST. LOUIS.

Cincinnati, O., April 6.—The election in Cincinnati yesterday was for mayor and other city officers, and members of the board of legislation. The Republican ticket was headed by Levi C. Goodale, for mayor, and the Democratic ticket by Gustav Tafel, the latter being elected by a plurality of 7,320, while the city gave McKimley a plurality of almost 20,000 last November and Caldwell, Republican for mayor, three years ago 6,755. The Democratic ticket had three Republicans on it for city auditor, treasurer and corporation counsel, but under the recently enacted Darr law it could not be called a Fusion or Independent ticket.

The ticket headed by Gustav Tafel was victorious throughout, the lowest plurality being for one of the Republicans, E. O. Eshelby, for city treasurer, who received only 309 plurality, and against whom a fight was made on account of the construction of new water works and for other local reasons. There was a total vote of over 65,000, as compared with 78,000 last November, being an unusually large vote for a local or spring election.

The issue here was on George B. Cox, who has been recognized as a boss in the city and county politics for years and a controlling factor in state politics. The ticket headed by Goodale was named by Cox and the issue was made against it as a Cox ticket. The Democratic gains were made in Republican wards.

EXCITING RACES.

Chicago, St. Louis and Many
Other Cities.

Hot Campaigns Followed by Live- ly Elections.

Chicago, April 6.—As was to be expected from the heated campaign that has been made here in the majority contest, the election today has been very warm and exciting. The fact that there are several Republican tickets in the field leaves little show for the election of any one of them. Carter H. Harrison, a Democrat, seems to be in the lead.

St. Louis, April 6.—The city election is scorching hot, all factions being at work with all possible energy. The chances seem to be in favor of Henry Ziegenhein, the Republican candidate, who it is believed will have a good safe majority.

Fifty-three cities in Illinois, Iowa, Wisconsin, Missouri and Kansas are today electing municipal tickets and in many of them the contests are very close and exciting.

Another Bicycle Shop.

Mr. Robt. McCune, the well known wheelman, has opened a bicycle and repair shop on Jefferson street near Bishop's grocery, and is neatly equipped for business.

All the pastors and Sunday school superintendents of the city are asked to meet at the First Christian church next Friday evening at 7:30 to devise means for increasing our Sunday school attendance.

FISCAL COURT CONVENES.

Grand Jury Gets to Work In the
Circuit Court.

MATT. R. S. LIVELY IN COURT CIRCLES.

The case of First National Bank of Union City, Tenn., against J. W. Etheridge and others, involving the disappearance of \$500 from an express package, is now on trial in the United States court, and may consume the entire day and part of tomorrow. The court has about finished its work, and if the case can be rushed through by night the term will close.

UNITED STATES COURT.

Chas. Livingston, the tramp arrested at Fulton a few months ago for passing two counterfeit half dollars, and brought to Paducah and confined until yesterday, when he was indicted by the Federal grand jury, was adjudged guilty and sentenced to the government prison at Columbus, O., for four years, and fined \$5, by Judge Barr in the United States court last evening.

In the case of Big Muddy Coal & Iron Co. against J. J. Lovell, a compromise was reported and the action was dismissed.

U. S. CIRCUIT COURT.

An appeal was granted in the case of Mamie D. Meacham against the Travelers' Insurance Co., and bond was approved.

CIRCUIT COURT.

Circuit court got down to business this forenoon, and the petit jury was impaneled as follows:

W. H. Jones, Thomas Clayton, Geo. Langstaff, Jr., Joe Feast, J. S. Durrett, E. Futrell, L. B. Rudolph, L. B. Durrett, O. T. Torian, Joseph Wurth, T. A. Greenwell, Robert Chambers, Thomas Meyers, L. L. Dale, W. H. McKinney, John L. Nance, F. W. Crawford, W. N. Grant, Joe T. Bishop, Charles Phipps, Charles L. Miller, M. B. Nash, A. J. Decker.

The grand jury, with W. R. Hoeker, as foreman, is today investigating the case against Hannah House, charged with criminal operation. The jail cases will be considered first.

This afternoon the case against Della Allen, Ed Owens and Shadrach Gills, charged with shooting Wilby Howell, is on trial.

Messrs. A. J. Decker and A. B. Sowell were excused from the petit jury this afternoon, and Messrs. James F. Estes and John T. Hughes substituted.

FISCAL COURT.

The regular term of fiscal court began this morning at the court house County Judge Tully presiding. The magistrates were present.

The treasurer's report showed a balance in the treasury in favor of the pauper fund of \$5,153.92. There is due the county a balance of \$18,334.92.

The funding account shows a balance of \$30,724.48.

The settlements with receiver and treasurer was all the business transacted this morning, and settlements are being made this afternoon.

The gravel road question will be taken up Thursday and probably settled.

W. C. T. U.

The first meeting in the month is evangelistic, conducted by Mrs. Octavia Wallace, superintendent of that department. These meetings are very helpful, and every member of the Union should take part in the exercise, thereby strengthening herself to discharge more perfectly her duty to the organization. "Consecrate yourselves today to the Lord that He may bestow upon you a blessing this day." All ladies in the city invited to attend the W. C. T. U., which meets Wednesday afternoon at 2:30 o'clock in the lecture room of the Cumberland Presbyterian church.

A DISMAL OUTLOOK.

Thousands Working to Save the
Levees.

Memphis, April 6.—The flood outlook at this place is exceedingly dismal. While thousands are working and lending every energy to save the levees, their labor threatens to be of no avail. Slowly but surely the waters continue to climb, except when brief respite is given from time to time by new breaks in the levee.

The situation is getting to be one of terror from the standpoint of the food supply and the horrors of famine actually stare some sections in the face. Scores of families driven from their homes have nothing to eat, and being dependent on charity have found themselves on the verge of starvation from the exhaustion of the local supplies. Deaths from starvation will undoubtedly occur unless speedy relief shall come from extraneous sources.

STARVATION.

Stares Many of the Flood Vic-
tims in the Face.

COMMITTEE IN WASHINGTON

Seeking Aid From the National
Treasury.

WORKING HARD TO SAVE THE LEVEES.

Memphis, Tenn., April 6.—The prediction made in these dispatches Friday that great disaster to the Mississippi Delta would follow the breaking of the levee at a point on the east side of the river north of Helena, Ark., has been terribly realized.

The break at Flower Lake, which occurred yesterday morning, has rapidly grown from a dozen feet in length to a thousand. This was the condition of the crevasse yesterday afternoon at 4 o'clock, when an Associated Press representative left the levee north of the break. Effort is being made to the each end of the levee, but owing to the difficulty in getting material from the railroad, five miles away, the success of the effort is doubtful. This crevasse is at the head of the delta, and will cause an overflow of the northern tier of counties in Mississippi, with the exception of a part of Tunica.

The question that now confronts the planters is the duration of the flood. If the water is out of the delta by May 5 a crop of cotton can be grown, but cotton planted as late as May 10 has little chance of maturing before frost. There is still another danger. These crevasses must all be closed before the June rise or there would be a second overflow. The delta country produces annually no less than half a million bales of cotton.

The river at Memphis was stationary last night.

Much suffering is reported from the overflowed regions. Relief steamers are making daily trips into Arkansas and Mississippi, rescuing hundreds of people and bringing them to Memphis. The local relief committee is doing everything possible for the unfortunate refugees. At a meeting of the committee late yesterday afternoon it was decided to ask other cities for help. The following appeal was issued:

The city of Memphis has been providing for the distressed flood sufferers from the overflowed districts of Arkansas and Mississippi with some little outside assistance for several weeks. Few Tennesseans are in need, but the demands on Memphis for others are very great and are increasing every day. Indeed, the demands on our people have grown to such proportions that we feel unable to meet them alone. Heretofore we have attempted to carry on this work without soliciting contributions from other cities, although many cities have generously given us voluntary aid. If the kind people of other towns and cities now feel disposed to lend a helping hand in this matter all donations received by the relief committee will be highly appreciated and judiciously managed. Donations of meat, meal and money are preferable.

The Memphis relief committee is well organized and can use money to the best advantage, as it is fully cognizant of the necessities of the situation. All remittances should be made to Bun F. Price, Treasurer of the Citizens' Relief Committee, Memphis, Tenn.

THOSE BONDS.

Councilman Livingston Says
They Were Issued
Illegally.

THE 1887 RAILROAD BONDS.

The City Pays \$4,500 a Year In-
terest Which Will
Be Saved.

MEANS A GREAT DEAL TO THE CITY.

Councilman Livingston was seen today relative to his request made in the council last night for the appointment of a committee to investigate the validity of the \$100,000 city bonds owned by the Chicago, St. Louis and Paducah railroad.

He stated that he had already investigated the matter thoroughly, and had discovered the issue was illegal, as the vote authorizing the issuance was contrary to law, bonds for two railroads being voted on the same day.

The Kentucky statutes expressly forbid that city stocks, bonds, etc., for any two railroads, or anything else, shall be voted the same day. This would render the issue null and void, apparently.

The city has \$100,000 in stock in the road, and pays 4 1/2 per cent. per annum on the bonds. Since 1887, when the bonds were issued, about \$35,000 has been paid out of the city treasury. If the council decides that the bonds were not legally issued this will exempt the city not only from the further payment of interest, but the principal as well and will save \$4,500 annually. The stock is not worth fifty cents on the dollar.

"I have explained the matter to several," said Mr. Livingston, "and only one said anything about it being repudiation. I say it is not repudiation any more than where a bank discounts a note with Livingston & Co.'s signature and when it is presented to me I say it is a forgery. We are not responsible for the mistake and the city was not legally authorized to issue the bonds. Hence if it is illegal it is unjust, and the city's money should not be paid out unless it is right and legal to pay it out."

Blight of Turkish Rule.

A look at the history of the Island of Samos since its escape from direct Turkish rule is proof enough that the struggle of the Greek race everywhere to shake off Turkish oppression is justified by every moral and material reason. Samos is much smaller than Crete and contains only 150 square miles, with a population of about 60,000. But the same unconquerable spirit that exists in Crete is found in Samos, and it won virtual autonomy from the Sultan nearly fifty years ago. In the Greek revolution of 1821 Samos took a determined part, and for nine years defied the Turkish forces. After the battle of Navarino, which established Greece as an independent nation, the Powers decided that Samos, for geographical reasons, should still belong to Turkey and be subject to a Turkish overlord. The Samians refused to submit for two years, and it was then arranged that they should be granted the right to elect their own council, with a president nominated by the Sultan but a Greek in religion. Beyond this, the island was required to pay to the Sultan an annual subsidy of \$16,500.

This arrangement was submitted to in 1832, when a fresh outbreak was threatened in Samos on account of the abuses and exactions of the Turkish representatives. The Sultan had no relish for another contest with the islanders, and further rights to govern themselves were granted. These included the election of a general assembly, empowered to choose their own president. A senate also was formed, of whom the Turkish police named one-half. Public revenues were taken from the prince and turned over to the native council. Each village had a voice in choosing its mayor, and the courts were reorganized, and given charge of certain cases previously subject to the arbitrary will of the governor. A mayor, assisted by a local council, was allowed jurisdiction in minor

lawsuits between inhabitants of his commune. In a word, Samos, won for itself political privileges not far removed from home rule.

The results during the forty-seven years that have elapsed since these concessions were wrested from Turkey have been of the first importance to the little island. It has enjoyed peaceful times. The population, which was 20,000 in 1832, has increased threefold. Its exports are eleven times what they were in 1832. There is no public debt, and the treasury reports a comfortable annual surplus. Complete freedom from Turkish authority would have increased this showing of prosperity. In the face of such evidences of improved conditions among their freer neighbors it is vain to expect the Cretans to drop back into the old order of things, subject to the greed

of a Turkish Governor and the grinding presence everywhere of Turkish troops. Crete has five times the population of Samos and the same affluence of race. The Powers will find that it is nerve to a final desperate effort to drive out the Turk forever.

TUESDAY, APRIL 6, 1907.

We are glad to add to our exchange list the Bowling Green "Press," the new daily Republican paper. It is a breezy, newsy, well edited little journal, and its advertising columns indicate a prosperity that we shall be glad to see grow with its age. Bowling Green is a nice town and should have a good Republican paper. We most heartily extend our hand and good wishes to the "Press."

A New York cabinet maker keeps one man engaged whose sole employment is the providing of false bottoms and secret drawers for desks, chairs and tables for the plutocrats of the metropolis. He runs the coincidence which frequently occurs between the manufacture of one of these secret recesses for some wealthy lady and the business failure of the husband of whom she infers that the secret place is made the receptacle of valuables which are thus safe from the clutches of greedy creditors.

The population of Greater New York is 3,400,000. The oil field employees of the city in all its departments will number 50,000 and the revenues required to carry on the government will be \$75,000,000 per annum. What a terrific drag, such a sample, as was the Teutonic countenance under Tweed, and indeed as it always been, only less marked, goes control. New York is great in all things, not excepting the official vice and corruption that prevails at all times.

One of the possibilities of the present situation in Europe seems to be an alliance between England and France. Heretofore France and Russia have been said to be in alliance, but a difference of opinion having occurred as to the blocking of Grecian ports, that alliance may be ruptured. England and France being both far more liberal and advanced in ideas of government than the Muscovite, the alliance between them would seem to be far more appropriate in the general fitness of things.

We are again assured that a successful process of photographing all the colors has been discovered by a distinguished French photographer. From time to time such announcements have been made and patents have been obtained, but the processes were so intricate as to be of little practical use. Now, however, there seems good reason to believe the discovery of a simple and practical method of real value has been made. The inventor has not yet made public his process, pending the issuance of his patents.

Mr. Edison is devoting considerable spare time to the idea of providing for the bicycle a means of storing the power created in the descent of a hill for the purpose of assisting when the wheel is about to level or attempts to ascend another hill. He does not believe a motive power either by storage battery or other known character can be made practicable on the bicycle, but that there is a possibility of reaching practical results on the lines he has laid down. Mr. Edison usually has a way of accomplishing what he sets his mind to.

An article in the "News" of yesterday was, as it was intended to be, extremely misleading as to the proposed action of the Republicans. It is certainly true that an entire Republican ticket will be placed in the field to oppose the Democratic ticket unless our Populist friends see fit to form an alliance such as the Republicans can accept. But the statement made that there is or is to be a "split and dried" ticket is untrue and

terly unfounded. The Republican ticket will be nominated in convention regularly called in the usual way and all who desire to place their claims before the convention will be invited to do so. The effort will be to get the best men for the places and the men who it is believed can poll the largest votes. The effort of the "News" thus to create jealousy and dissatisfaction in the Republican ranks will fall flat.

IMPORTANT MATTERS DISCUSSED
Two Investigations Ordered.—Mr. F. W. Katterjohn Re-elected Tax Collector.

Whether Dr. Hunter is the best man that can be secured for United States senator is not a question involved in the senatorial fight at Frankfort. He is the caucus nominee of the Republican party and as such entitled to the support and the vote of every Republican member. A member can well afford to stick his individual preferences in submission to the will of the majority, and this is Republicanism. Are these men under instructions of some boss who will not permit them to exercise their own free will and judgment? Probably not, but they will undoubtedly get some instructions from their bosses, the people, in their respective districts in the near future. The Republican party is greater than any man in it and its interests are first to be considered in connection with this matter. Its interests are suffering seriously by the action of the bolting Republicans. If the governor is in any degree responsible for the action of these men he is, with them, deserving of the severest condemnation.

There are in use in this country according to a bicycle authority, no less than 3,000,000 bicycles, and the probability is that the present season will witness the addition of another million to the number. The manufacture of the bicycle trade and its influence on the country in various ways is not appreciated by even one, the capital invested in the manufacture and sale of the wheel in our country runs high up into the millions and the number of people who find profitable employment in this line is many thousands. The evolution of the wheel from the acre plow carriage to the practical, every day business vehicle has been rapid. Its influence in the displacement of the horse affects his value to no small degree. Not only so but live stock feel it in a marked degree. Another important effect of the wheel is the decided improvement in public sentiment on the subject of roads. Good roads are a necessity to the wheel and the vast number in use has given the good road thousands of devotees and earnest advocates where heretofore there was merely indifference.

The report of the "Register" in reference to the printing bill of the Six is misleading in the extreme. In its anxiety to make the impression that the Six is making money out of the city illegitimately it has not failed to take advantage of an opportunity to mislead its readers. In the first place the bill of the Six was not \$241.46, as reported by the "Register," but \$201.46. The impression is created that this bill was solely for the tax list. Besides the tax list there were a number of very large orders, including the railroad ordinance, for the several inspections of which the Illinois Central railway pays, and the steam heating ordinance, to be paid for by the company to whom the franchise shall be sold. There were a number of other ordinances and numerous notices. The tax list was published just as often as and no oftener than it was ordered published by Collector Katterjohn and Mayor Yeiser. Katterjohn received altogether eleven inspections at a rate which makes the cost less than the legal rate by statute for the county list, while rate, were the law, would doubtless apply to the publication of the city list. The Six will perform its duty conscientiously and expect its legitimate compensation for its services as provided in the contract. It will ask nothing more and accept nothing less.

Chairman Livingston had several petitions to be used in transferring a liquor license to the Pieper place, in Rowlandtown, but no application. Hence no action could be taken.

Chairman Katterjohn read the water supply and fire chief's reports, which were received and filed.

PARK COMMITTEE.
Chairman Katterjohn reported that Yeiser park was now open, and every thing was all right except the fountain, which will be given the needed repairs.

NEW BUSINESS.
Mr. Williams said that there had been some talk of dissatisfaction with the conduct of the chain gang boss relative to prisoners, and moved to appoint a committee to investigate the matter.

Major Barnes said that it appeared that there was some dissatisfaction among the chain gang boss, street inspector and lockup keeper and wanted the whole thing investigated.

Councilman Farley objected, saying that there had been a whisper against the lockup keeper and street inspector and an investigation would do them an injustice.

Major Barnes said that he had heard some of them complain themselves and the thing ought to be investigated in justice to all. Councilman Farley said that he desired to file no investigation, but that no complaint had been made against some of them, and he could not see the justice in including them in the investigation.

The motion to include the lockup keeper and street inspector was lost by a vote of 6 to 5. Mayor Yeiser voting no. The motion to investigate Mr. Farley was then carried. The special committee appointed Mayor Yeiser is Chairman Katterjohn, Stark and Bell.

Councilman Williamson said that both city locks are badly out of repair. He moved that the public improvement committee have them improved, and the motion prevailed.

Councilman Williamson moved that an ordinance be drafted prohibiting any one establishing a private "coking" over any portion of the city. The ordinance was drafted and passed.

"TATER" DAY

And How It Was Celebrated in Benton Yesterday.

MANY CANDIDATES WERE OUT.

Democratic Party Seems Badly Split in Marshall.—Coming Primaries.

AN INTERESTING LETTER FROM MARSAALL

A representative of the Six visited Benton yesterday. It was county court day and a large crowd was gathered to hear the candidates speak. In their stock of seed sweet potatoes, swap horses, swap farms, etc. The first Monday in April of each year has become generally known as "tater day" at Benton, and on that day the public square is always covered with wagon loads of the esculent root.

The county candidates—well, the town was just full of them. It seemed that every one was a candidate for something. There are two sets of them: Some have submitted their claims to the Democratic primary election, which is to be held on next Saturday. The other set is running subject to the action of the citizens' mass convention, which is to be held at Briensburg the first Saturday in May. The Democratic party in Marshall seems to be hopelessly split and unable to come together with any degree of unanimity. It is the opinion of many Democrats, with whom I talked that the ticket to be nominated next Saturday will not have a "walk over" at the November election by any means.

There are three entries now in the legislative race in Marshall. Mr. Beauregard Wyatt, of Briensburg, announced himself yesterday afternoon. The other two candidates are Elder D. M. Green and Squire Bill Holland.

An order was made in the county court yesterday appointing a committee to redistrict the county into new legislative districts. The number of districts will be increased from five to eight. C. B. Littlejohn, N. E. Collins and Isaac Johnston were appointed commissioners to carry out the court's orders.

Mr. John Jeffrey, of Dexter, and Miss Tina Solomon, of Briensburg, were united in marriage at the county court yesterday afternoon by Judge Dupont.

Lee Rudolph, the young man who was accidentally shot a few days ago by Miss Ida Jones while the latter was carelessly handling a revolver, died yesterday morning at his home near Benton.

The young lady, it is said, is almost crazed with grief over the afflict.

Yesterday afternoon about a o'clock while Mr. Albert Bailey, 5 young man living near City, was returning home from Benton, his horse became frightened at a passing train near the Benton depot, reared up and fell on the shafts, breaking them and tearing himself loose from the buggy.

After freeing himself from the vehicle, the horse back into a large field forty feet deep, in the rear of Johnson's dining mill. The animal went down with a dull thud, falling into twenty-five feet of water and had not been for the timely assistance of bystanders he would certainly have drowned in a very few minutes. By the assistance of several large ropes and about fifty men and boys the profligate beast was finally landed on top side of terra firma. Mr. Bailey escaped from the buggy unhurt.

The Six is rapidly becoming the most popular paper that reaches the people of Marshall. Republicans and Democrats alike speak in the highest terms of commendation of the publishers' efforts to give the people the best newspaper in Western Kentucky. While in Benton the names of sixteen new subscribers for the weekly Six and four for the daily Six were added.

I heard of Dr. Bell's Pine Tar Honey, and seeing many recommendations from different persons, of its wonderful value for a sore throat, I would try a bottle. I have been severely affected for twenty-five years with a cough and pains in my side and breast that were causing me a miserable life. I spent hundreds of dollars with doctors and for medicine, but everything failed until I found this wonderful remedy. It cures the world and has saved my life. I recommend Dr. Bell's Pine Tar Honey to everybody with weak lungs. It is a great success. J. B. Russell, Grantsburg, Ill.

Fishing Non-Voters.
Early in the history of Maryland a fine of 100 pounds of tobacco was imposed upon every elector who failed to vote at an election. It is said that the only similar attempt made since that time to stimulate the regular exercise of the franchise is a provision of the charter of Kansas City, Mo., imposing a fine of \$2.50 upon every qualified voter who fails to vote at a general election. This was adopted in 1889, and a test case under it has just been ruled upon by the supreme court of the state. That tribunal has overruled the decision of the lower court, which sustained the provision of the charter, and has pronounced it unconstitutional. Youth's Companion.

GETTING AT THE FACTS.

Stories of Three Witnesses in the Coroner's Office.

Scene: The Hancock county coroner's office.
First Witness.—Yes, I saw the whole affair from the very start. The man who done the shooting was peering down one side of the street, when he seen three men running across a vacant lot, trying to get away from him. Then he draws his gun and fires and that was the end of poor Jim. Nobody saw a word during the whole affair.
Second Witness.—Yes, I was right there through it all. The man who was shot came running across the street toward Rodgers, who was going along, minding his own business. Somebody yelled: "There he goes!" and then Rodgers was hit on the head with a brick and knocked down. He tried to get up, but six fellows were beating him, and pulling out his revolver, he shot, one of his assailants falling dead.
Third Witness.—Well, I'll tell you how it was. Rodgers, here, was riding down the street in a toy buggy and pretty soon Bullock, the man who was killed, came along on a bronco. When he caught up to Rodgers the bronco began to buck and there was a bad mixup. The buggy was upset and Bullock was thrown off. Then I heard the report of a pistol and when the dust had cleared nobody was anywhere to be seen.

All the witnesses having been heard the coroner files a penny. "Tis heads" and the verdict is that the deceased came to his death because of a fatal bullet wound in the left breast, the identity of the shooter being as yet unknown."—Cleveland Leader.

Grilled Mackerel.
When choosing mackerel see that it has a bright, silvery appearance. A mackerel should not be washed if you are going to grill it, but simply remove the gills and inside, and then wipe quite dry and clean with a clean cloth.
Next split it down the back, and, if it is a large fish, open it out flat. Sprinkle over a little pepper and salt, and a little oil, or, if you prefer, put there a few small pieces of dripping. Grill it over a nice clear fire; see that both sides are thoroughly cooked. When it is sufficiently done, the flesh will come away easily from the bones. A small mackerel will probably take about ten minutes, and large ones, of course, longer.
Serve very hot.—Boston Globe.

Congressman Chas. K. Wheeler arrived this morning to spend a week or ten days with his family. He will return to Washington at the expiration of this time.

ITS OWN BRAKEMAN.

The Illinois Central Railroad Company now has four special policemen to look after its interests here, and one thing they are going to do is to break up jumping on and off moving cars.

Chas. Bullock, one of the company's own brakemen, and John Polk, a colored employee at Attorney Reeves', were presented on the charge of jumping on and off the trains in Judge Sanders' court this morning and fined \$5 and costs.

The company's agent had the brakeman arrested because he was on another train and not in the discharge of his duty.

AN OLD OFFENDER.

John Kountz at His Old Tricks Again.

John Kountz, a grey headed denizen of Mechanicsburg who last summer had a great deal of trouble with his daughter, Miss Annie Kountz, and secured no little newspaper notoriety as a result, was before Judge Sanders this morning on a charge of being drunk and disorderly.

Judge Sanders stated incidentally that Mrs. Perkins and Kountz's laughter had been there to get a warrant for him for a breach of the peace and said they could stand his culpable conduct no longer.

Judge Sanders let the old man off with a \$5 fine but promised that if he again molested his daughter or anyone else, he would be warranted and in addition be required to execute a peace bond or go to jail, with heavy aids in favor of the latter.

TOOK AN APPEAL.

Old J. D. McNeely, of Boaz Station, in the Police Court.

J. D. McNeely, the old gentleman who came up from Boaz Station Friday in pursuit of the robbers who broke into C. L. Harney's store and was arrested for drunkenness, a pistol being found on his person, was given a trial this morning in the police court and fined \$25 and given ten days in jail on the concealed weapon charge and \$1 and costs for drunkenness.

He asked for an appeal to the circuit court in the first named case, and it was granted.

BAD MAN.

Henry Sent to Jail For Twenty Days.

Henry Jones, colored, who was arrested Sunday with a huge iron-shut in his pocket, was tried this morning, and fined \$50 and given twenty days in jail. The ugly weapon he carried was covered with blood, and it is thought that the darkey is wanted somewhere on a grave charge.

He claims to be from near Ripley, Tenn., leaving there last June. He went south and picked cotton, and struck Cairo about a week ago, coming to Paducah last Sunday.

TOLL GATE RAIDERS.

Intimation of Them In MeCracken Occasions Talk.

Judge Tully Thinks the Rumors Afta Bluff.

County Judge Tully created something of a furore when he announced in an address to the council last night that he had received an intimation that a tendency seems developing among some of the residents of the county—on one road, particularly—to do away with toll gates, even if the methods practiced in some of the upper counties have to be resorted to. It is unlikely that any one in MeCracken county would sanction such lawlessness, much less practice it. Judge Tully stated to a S. W. reporter this morning that he deemed it all a "bluff."

RELEASED ON BOND.

Graves County Murderer Out On \$1,000.

Billy Keeling Likely Guilty of Manslaughter.

Billy Keeling, who gave himself up at Mayfield Saturday to answer for killing Jas. Spicer at Wright's chapel in 1893, was given an examining trial yesterday at Mayfield and released on a bond of \$1,000.

The evidence developed the fact the killing was not murder, but perhaps manslaughter.

SUBURBAN ROBBERY.

\$10 Stolen From Mrs. Thomas Finley.

A Colored Servant Suspected of the Theft.

Mrs. Tom Finley, who lives on Afton Heights, Arcadia, had \$10 stolen from her last night. \$15 in money and a check for \$25 were taken from under the mattress, where the money had been concealed for safety.

A colored servant who was employed at the house is suspected, as he has disappeared since the theft. Constable Anderson Miller has been at work on the case all day.

STRUCK WITH A SPOKE.

A Colored Boy Swears Out a Warrant.

Burnett Beauregard, a colored boy employed at Little's spoke factory, appeared at the city hall at 3 o'clock and swore out warrant for "Kosh" Little.

He said the latter struck him in the head with a spoke, and he had a bleeding wound under his hat. It appears they had a few words over the boy's work.

TRACK TO BE UNCOVERED.

Race Track Soon to Be Used Again.

The West End race track, which has been covered up all winter for protection, will be uncovered one day this week, if pretty weather continues.

This will be welcome news to turfmen, who desire to work their horses and get them in trim for the approaching races.

There are now five horses quartered at the West End driving park.

TRAPS FOUND.

But They Are Doubtless Badly Damaged.

The Paducah Gun club's electric traps, which were swept away from Riverside park, together with the trap house, when the river first got on a rampage, have been located some where below the city, according to some of the members of the club, and as soon as the river sufficiently recedes they will be replaced.

SALOONKEEPERS FIN'D.

Thirty-three Up for Violation of the Sabbath.

All But One Pleaded Guilty and Were Fined \$10.

This morning's session of the police court was a profitable one to Prosecutors Attorney Reeves and Marshal Collins. Thirty-three saloonkeepers were charged with dispensing decoctions on the Sabbath contrary to law, and all pleaded guilty but one, whose case was set down for trial tomorrow. A fine of \$10 and costs was assessed against the others.

A PECULIAR ACCIDENT.

Comes Near Resulting in a Disastrous Fire at Benton.

A rather peculiar accident occurred at Wilson's drugstore in Benton yesterday afternoon. Jamie Wilson poured about a pint of alcohol into a graduated glass to prepare a mixture for a customer, when Mr. Rich Reed came in and accidentally turned the glass over onto the floor. As he did so he stepped upon a match lying on the floor, igniting the alcohol. The flames leaped up to the ceiling and for a time a serious conflagration was threatened. The timely use of a few buckets of water soon quenched the blaze, which did no more damage than to blister the adjacent furniture and frighten the druggist almost out of his wits.

FURTHER PARTICULARS

About the Calloway County Tragedy.

Henry Carlton, who killed Beck Jones at Lynn Grove, Calloway county, Sunday night, is still at large.

It is said, however, that Jones was drunk, and had followed Carlton about all day, attempting to provoke a difficulty. The two were brothers-in-law, and Carlton fired a shot or two with his pistol before he finally killed Jones with a shot gun. The tragedy occurred at Carlton's home, whether Jones had followed him.

WEDDING BELLS

Will Ring For a Happy Young Couple Tomorrow.

Tomorrow afternoon at 5 o'clock the marriage of Mrs. Katie Bolds to Mr. Liston Dunn will take place at the St. Francis De Sales parsonage. Rev. Father James officiating. Mr. Dunn is a prosperous business man, while the bride is both pretty and popular.

The wedding will unite two worthy young people who have a host of friends in the city, as well as elsewhere, who will extend their best wishes for the future.

MALE SOCIETY BUD.

He Has Arrived and Great Things Are Expected of Him.

If the blossoming of the female "bud" into a flower of society is a proper topic for newspaper discussion, why should not the male "bud" be also honored with a detailed "write-up" in the public prints, so that his charms may be as widely advertised as those of the attractive creatures who depend upon him for seats at the opera and partners at the german? Evidently there is no just reason for the discrimination from the point of view of a Washington paper, which presents in several columns the best qualities of a number of masculine "buds" which are now full blown.

The proud monopoly which the fairer sex have heretofore enjoyed is thus rudely assailed, and hereafter it would not be surprising if the enterprising reporter has to give as much attention to those eye some things that wear dress coats and belong to the club as he has heretofore devoted to the ladies. Whether this shall prove to be an affliction remains to be seen, but the novelty of the innovation will no doubt lend some interest at first to the apostrophe of the male "bud."

Blond or brunette, handsome or straggly type, he will be pictured to us in all his stunning beauty.

The part of his hair, the length of his collar and the brevity of his top coat, the style of his boots and the color of his gloves, the diameter of his eyeglasses and the angle at which he wears his silk hat—all these details and many more not here set forth will be dwelt upon with the nice analysis and painstaking industry of the society reporter. Eyebrows, teeth, trim of beard or mustache, nose of Grecian or Roman type, perhaps rousseau or cuppaive, will not be neglected, of course.

Great things are promised for the exaltation of the male "bud," and if he has heretofore blossomed in obscurity the time of his apotheosis has come. No longer will he be a violet in modest seclusion, but a sunflower, brilliant, if not gaudy.—Baltimore Sun.
